PROFESSIONAL SUMMARY

Final-year Electrical & Electronics Engineering student (CGPA: 9.13/10) with hands-on experience in electrical power distribution through a six-month internship at Nepal Electricity Authority. Passionate about power systems, industrial automation, IoT, and smart energy solutions.

EDUCATION

B.Tech (Electrical & Electronics Engineering) Aditya College of Engineering & Technology (Autonomous), India CGPA: 9.13* / 10	2023 - 2027
Higher Secondary (Technical & Vocational – Electrical Engineering) Pashupati Secondary School, Nepal GPA: 3.43 / 4	2020 - 2022
Secondary Education (Technical Stream) Tribhuvan Secondary School, Nepal GPA: 3.92 / 4	2017 - 2020

EXPERIENCE

Electrical Engineering Trainee (OJT) | Nepal Electricity Authority, Bharatpur Distribution Centre Jun 2022 - Dec 2022

- Supported electrical distribution maintenance, fault restoration, and service cable replacement.
- Observed substation operations, switchgear maintenance, and transformer inspections.
- Assisted with installation and testing of single-phase and three-phase energy meters.

Electrical Repair & Maintenance Trainee | Local Electrical Workshop Jan 2023 - Mar 2023

- Repaired ceiling fans, electric motors, and household electrical equipment.
- Performed fault diagnosis, wiring correction, and followed electrical safety practices.

ENGINEERING PROJECTS

- **Smart Street Lighting System for Hilly Areas** – IR sensor-based LED lighting for energy efficiency and glare reduction.
- **Smart Home Lighting Automation** – Occupancy-based indoor lighting control using motion sensors for energy savings.
- **Smart Factory IoT Monitoring System** – Real-time monitoring of industrial equipment using IoT.
- **Transformer Life Gauge** – Transformer health and remaining life estimation.

CERTIFICATIONS

Internet of Things (IoT) Internship – Emertxe

Introduction to Industry 4.0 and Industrial Internet of Things – NPTEL, IIT Kharagpur (Elite, Top 5%)

Japanese-Language Proficiency Test (JLPT) N5 – The Japan Foundation & JEES

Electrical Engineering On-the-Job Training (6 Months) – Nepal Electricity Authority, Bharatpur Distribution Centre

LEADERSHIP & ACTIVITIES

Coordinator – Project Presentation Event, VEDA 2K25 National Level Student Symposium

Second Prize – Poster Presentation, VEDA 2K25

Paper Presentation Participant – VEDA 2K24 National Level Technical Symposium

KEY ACHIEVEMENTS

Second Prize – Poster Presentation, VEDA 2K25

Coordinator – VEDA 2K25 National Level Student Symposium

NPTEL Elite (Top 5%) – Introduction to Industry 4.0 & Industrial IoT

SKILLS

Electrical: Power Systems, Electrical Machines, Power Electronics, Control Systems

IoT & Embedded: Embedded C (Basic), Microcontrollers, Industrial IoT

Software: MATLAB/Simulink, Proteus 8, DIALux evo, Ultiboard

Practical: Electrical Maintenance, Fault Diagnosis, Power Distribution

LANGUAGES

English – Professional Working Proficiency

Hindi – Fluent

Nepali – Fluent

Bhojpuri – Native

Japanese – JLPT N5
